

L ROD STYLE CONTAINMENT BERMS (LRB)

Canadyne L-Rod Berms are flexible, portable, fully collapsible, and can be rapidly deployed to contain spills and leaks from vehicles, equipment, tanks, drums and other industrial equipment.

Aluminum L-Rods at regular intervals are used to support the walls of the berm, but are easily folded to allow for entry and exit.

Designed in a range of sizes and wall heights, these berms are offered in a variety of fabrics, ranging from heavy duty vinyls to petroleum and chemical resistant fabrics

Features:

- Standard fabric is 30 oz chemical resistant XR5, black. The polyester base fabric is stable and supports a coating with exceptional UV and hydrocarbon resistance.
- 10 year fabric warranty covers both weathering and chemical resistance
- Standard sizes and side wall heights (6 inch, 12 inch and 15 inch), custom sizes available
- Lightweight, portable and easy to clean and maintain
- Easy set up – unfold and use immediately. Folds back up for compact storage

STANDARD BERM SIZES (other sizes and fabrics upon request)
