

PRODUCT BULLETIN: PSP100-080

**SORBENT ROLL, MEDIUM WEIGHT, COMPOSITE,
UNIVERSAL, DIMPLED**

1 roll per bag, 30" x 150'

Fine fiber polypropylene is a soft, super-absorbent fiber that resembles tissue paper. Its most common application is for air and liquid filtration, but we use it as a covering for various absorbent composites.

We thermally bond a thin layer to each side of our standard, coarse fiber, meltblown polypropylene. These composites absorb quickly, remove the sheen from the plant floor, and they also grip the floor.

Rolls are used when undetermined lengths of material are needed or when dragged across a spill to remove the final sheen.

Part Number: PSP 100-080

Colour: Grey

Qty: 1 roll per bag

Weight (approx.): 10.4 kg

Absorbency: 150 L

Size: 76 cm high x 46 cm dia

Length: 45.7 m

Packaging: Clear Plastic Bag, Label
