PRODUCT BULLETIN: PSP100-185

Neutralizer, ACX (Acid Neutralizer) case of 4 x 4kg jugs

Vytac ACX Acid Neutralizing powder is an efficient and quick method of neutralizing acid spills. The reaction caused by neutralization with VYTAC-ACX generates harmless gases and the residue is environmentally harmless and is easily disposed of.

For maximum safety VYTAC-ACX contains an indicator system that shows you when the liquid is completely neutralized. The powder also contains anti-foaming agents.

1 kg of VYTAC-ACX will effectively neutralize (approx):

500ml of sulphuric acid @ 96%
550ml of phosphoric acid @ 85%
660ml of nitric acid @ 70%
1250ml of hydrochloric acid @ 32%
2000ml of battery acid

PSP100-185 – Case of 4 x 4 kg jugs

PSP100-185-S – Single 4 kg jugs (sold by the jug)
