P2 Economy Model, With Drain

53" x 29" x 16.5" (1346.2mm x 736.6mm x 419.1mm)

The Ultra-Spill Pallet – P2 Economy Model was designed to help meet spill containment regulations without breaking the bank. With a maximum capacity of 2 or 4 drums. The drain option allows any spilled contents to be easily removed.

By storing 55-gallon drums (or other size containers) of hazardous material on our pallet, you can rest assured any incidental leaks or drips, as well as any spills, will be captured in the 66-gallon sump. The all-polyethylene 2' x 4' grating keeps drums above any spills and is easily removed to help facilitate clean-up. This model can easily be moved, relocated, or transported with a pallet jack or forklift.

Part Number: PSP 300-038

Colour: Black

Qty: 1 ea

Weight (approx.): 63 lb (28.6 kg)

Size: 53 x 29 x 16.5 (1346.2 x 736.6 x 419.1)

Grating Surface In: 48 x 24 (1219.2 x 609.6)

Containment Capacity: 66 (249.8)
